Preface

It was a year full of projects and help to many children. But it was also a year where the coordinator Michael let the foundation to find a better life in America. It came as a shock because we were not prepared for that. But thankful we are for our other two team members in Cameroon who took their responsibility to make the foundation not feel the lost. They took Michaels assignments as if they never did anything else. We thank them so much for their reliable position. Beside this we welcomed a new Needs For Children baby. Our secretary Marie put to birth a beautiful baby girl. She was absence for some time in the office, but she always kept the contact with the team in the Netherlands. So we are grateful for her commitment. Who also showed her love for the foundation is our community worker: Clara. Despite of how everything went this year, she was always there to make sure things were going smoothly. Thanks so much for that.

The foundation is getting really known in Kumba and the direct villages around. More and more people know where to find the office to seek for help. The foundation is still organized in a basically simple way in order to be able to give direct support to the local population in groups as well as individually. We help children at the time and place of direct needs. In this way we can build a relationship with the child and the family. This in order to make sure quality of care and support we offer is optimal. After support has been given we stay in direct contact with the child to ensure that our goals will be accomplished. Also the prison and orphanages projects are direct and personal.

With our team in Cameroon we accomplish a lot of goals and carry out a lot of projects and help. However, it is impossible to fulfill all the projects without the help we get from volunteers and contributors from the Netherlands. Besides of the individuals there have also been companies that put effort in the foundation and can be relied on in the future. Of course this does not happen by itself, the foundation put a lot of effort in finding publicity. We made the newspapers several times and events were organized. The team in the Netherlands, led by Liesbeth van Elderen, managed fundraising by organizing flea markets, fairs, presentations, clothing parties, and so on. Also in Best and the direct villages the foundation is really known. People often come bring clothes and toys for the children in Cameroon. We mostly send it to Cameroon but since it is so much we also sell them in the shop in Best. Everything we earn from that goes directly to the foundation.

Since 2016 the situation in Cameroon is dangerous because of strikes and killing going on. Some areas in the South West of Cameroon is so dangerous that even the foundation can't go there anymore. Because of this reason, the president of the foundation, Kim van Elderen, has not been visiting Cameroon since 2016. The team in Cameroon has been constantly in contact with the president so that she is involved in all the projects going on.

In this annual report we want to give an overview of what the foundation did during this year on the side of projects, fund raising and of course the finances in detail. Apart from that we will take a short preview to 2020. Needs For Children is an open foundation and that is the reason why all finances are explained in detail.

Needs For Children

The foundation was started on 17 October 2011 in Best. The idea originates from Kim van Elderen. Since 2009 she has been traveling regularly to Cameroon to work on a voluntary basis as a nurse in the Ejed Medical Foundation, Kumba-Cameroon. Her experiences have shown her that the children in and around Kumba need a lot of help. Before she started her foundation, she provided aid to children with financial help, by donating material to an orphanage and by improving the facilities of the Ejed Medical Foundation. It was not easy to do this all as an individual, so Kim started her foundation to be able to help the children even more and to give them better opportunities in life.

KvK-number: 53767853, this registration is under the administration of "*Kamer van Koophandel Brabant*"

Collaborating organizations in Cameroon

- 1) Ejed Medical Foundation. The hospital is now led by Medical Officer Nzume Micahel. We have been collaboration with them from the beginning. In the Ejed Medical Foundation we treat our sick children and are our new babies born.
- 2) Kumba District General Hospital. The Government hospital in Kumba. They call when they need help for sick children who were left by their selves. In collaboration with them we look how we can help and also the hospital helps a percentage of 50%.
- 3) Kumba Central Prison. The prison in Kumba works closely together with the Foundation. Together we ensure quality of care in prison for minor prisoners. Where the Government offers no help, we will do so.
- 4) Ministry of Social Affairs. They are our back up. They are kept informed of the projects we do and they see where they can help. And the other way around.
- 5) DGRE. They protect the Foundation where necessary. They also take care that reports about the work of the NGO are written down and send to the Government in Yaoundé. This to make them know about Needs For Children.

The maternity of the Ejed Clinic has always been part of Needs For Children. In the past years we did several renovations. This year we started a project to help young pregnant girls. Avetus Eyoh

Avetus, 16 years old, was a young pregnant girl whom the team saw during one of the community visits. Her pregnancy was 7 months old and she had never attended antenatal nor gone to a hospital. Above all, she hadn't bought anything for the baby.

On her first antenatal visit, her baby was fine but after the lab tests conducted, the mother had gonorrhoea and another parasite. She was given drugs by Ejed Clinic and booked for the next meeting in the next month. She followed up her visits keenly and on the 26th of August she gave birth to a bouncing baby boy. She gave birth before her EDD (Expected Date of Delivery) that was slated on the 16th of September. The baby was named after the person who donated money for this particular case: Ron Miracle.

Ngum Clementine

Clementine was the second case who unfortunately did not continue her antenatal till the end. She was brought to Needs For Children in August by a post office worker. The girl was pregnant from a taxi man in Buea who promised to help her but instead slept with her and sent her away the following morning. That is how she found herself in Kumba with no place to stay until Mr. Mpenda found her and decided to help her. She came her first antenatal on the 15th of August 2019 and had never come again till date. Mr. Mpenda made us to understand that she has met a guy who wants to married her and left with her.

1. *Expected projects*

*** Medical support to children:**

Focuss more on providing medical support to individual children. With the crisis going on, many children have run together with their family their villages because of the danger. So it is difficult to trace them. When they get sick they often don't have the resources to go to a hospital. We want to help those children. However we will draw a clear limit to how far we help. It is expected that the family will also contribute a percentage. In order to have more chance of success.

*** Prison project:**

Visit the prison every month to offer them information and help. Beside that we want to help the minor inmates whenever they are sick and need treatment outside of the prison.

*** Orphanages:**

Keep on supporting the orphanages in and around Kumba, in every possible way.

*** Participation on Day of the African Child or Youthday:**

A day to bring all the children together we have ever helped. This to see how they are doing and to give them a nice happy day together.

*** Maternity renovation project:**

To make the Maternity attract more people and to make sure a girl can deliver safe, the maternity needs to be renovated. Now it looks old and does not have the full equipment.

*** Teenage Pregnant Girls Program:**

In 2019 we started it as a trial. This year, 2020, we have to make it available for more girls. In collaboration with Ejed Clinic we will follow up the girls during their whole pregnancy with lab tests, checkups and echography. We will also do the delivery and take care of all the costs. The girls will be send home with full equipment for the baby.

* Apart from these projects the Needs for Children foundation also offers materials to children who need it. This can vary from clothes to toys, and so on. For this reason we try to send the materials we receive from people from the Netherlands as much as possible to Cameroon so the foundation can distribute it.

There are much more possible projects next the mentioned ones but we try to look at the specific needs at every moment. Needs for Children is synonymous for small scale projects!

Epilogue

On behalf of the whole team thank you for your interest in our Foundation Needs For Children. We are a small Foundation through which we can provide immediate help and we can continue to follow up. We find it important that we are an open Foundation and where money goes 100% to the projects. Hopefully this annual report has given you a good image on how we work. For more detailed information on the projects, children or financial situation, send an email to needsforchildren@hotmail.com

Welcome to the world our new NFC baby, Baby Grace! Congratulations Marie and husband!
